Our highest priority continues to be safeguarding the health, safety and well-being of the university community. The Department of Student Housing is taking necessary measures to maintain a safe campus environment, consistent with guidance from the U.S. Centers for Disease Control and Prevention (CDC), Governor Tate Reeve’s Safe Return executive order, the Mississippi State Department of Health (MSDH), city of Oxford’s Serving Oxford Safely order, and local health authorities.

All students living in on-campus housing for academic year 2020-21 are required to complete the attestation below before returning to move in to their Fall 2020 housing assignment.

- I have been advised of the symptoms related to COVID-19, including but not limited to fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, or diarrhea. I understand the listed symptoms are based upon current CDC guidance which may change overtime.

- Should I or anyone in my household test positive for COVID-19, develop any symptoms of COVID-19, or become exposed to a person positive with COVID-19, less than 14 days before returning to Oxford, I will stay home and not return to campus and contact Student Health to discuss my specific circumstances. I agree to inform Student Health if I test positive or show symptoms of COVID-19.

- I understand it is my responsibility to self-monitor for COVID-19 symptoms daily before returning to campus or going to class.

- I understand that if I test positive or have been exposed to a person positive with COVID-19, I may be required to obtain a medical clearance from a medical provider before returning to campus and/or moving into my residence hall/apartment.

- I understand it is my responsibility to adhere to the University's COVID-19 protocols and procedures, including public health recommendations, intended to prevent and slow the spread of the virus.

- I understand it is my responsibility to visit coronavirus.olemiss.edu for the COVID-19 guidance and resources. As the CDC issues new public health recommendations, the website will be updated accordingly.
